President of the German Actuarial Association
Visiting professor at Salzburg University

Dates: Friday from 4 p.m. to 7 p.m. and Saturday from 9 a.m. to 1 p.m. on the following weekends:
7\textsuperscript{th} and 8\textsuperscript{th} March 2008
4\textsuperscript{th} and 5\textsuperscript{th} April 2008
11\textsuperscript{th} and 12\textsuperscript{th} April 2008
30\textsuperscript{th} and 31\textsuperscript{st} May 2008
6\textsuperscript{th} and 7\textsuperscript{th} June 2008
20\textsuperscript{th} and 21\textsuperscript{st} June 2008

Contents: The course covers all aspects of life insurance mathematics required to become a fully qualified actuary according to the core syllabus of the International Actuarial Association and the core syllabus of Groupe Consultatif, according to the regulations of the Actuarial Association of Austria (AVÖ), as well as according to the regulations of the German Actuarial Association (DAV). The course is suited to all those who want to acquire knowledge of life insurance mathematics. Previous knowledge of insurance mathematics is not required. Please find the structure of the course below.

Course fees: € 984. The course fees cover the 6 overnight accommodations from Friday to Saturday in the Castellani Parkhotel including breakfast.
The fees for participants who do not need accommodation are € 444.

Information: For further information, please contact Sarah Lederer by fax (+43 662 8044 155) or e-mail (sarah.lederer@sbg.ac.at) with your telephone number. Your questions will be answered as soon as possible.
Registration: Please send the attached registration form by post or fax it to +43 662 8044 155, and arrange for the amount to be transferred (at no cost to the recipient) to the following account before 15th February 2008:

Salzburg Institute of Actuarial Studies (SIAS)
IBAN: AT 792 040 400 000 012 021  BIC: SBGSAT2S

Location: Lecture Hall 402 in the Faculty of Science
A-5020 Salzburg, Hellbrunner Straße 34

Course Structure

1 Basics of financial mathematics
   1.1 Interest rates
   1.2 Present value
   1.3 Annuities
   1.4 Project appraisal
   1.5 Interest in continuous time

2 Types of life insurance
   2.1 Term insurance
   2.2 Endowment
   2.3 Annuities
   2.4 Unit linked insurance
